

1st June 2020.

Subject: GPSGC Re-branding Exercise. (Rocket // EnerRocket)

Dear Clients & Partners,

Our team from Global Power Source Group of Companies - GPSGC would like to sincerely thank you for your continued support since our establishment in 1985. Moving into 2020, we have made some new corporate initiatives involving the rebranding of our ROCKET (A) products to EnerRocket (B).

Please note that with effect from 1st June, 2020, we will be rebranding our ROCKET products to EnerRocket. We have decided to include the prefix 'Ener'- Energy, ahead of Rocket to provide some synergy among the other industrial brand name products which we manufacture under the GPSGC umbrella. Also, the fact that we want to offer BMS as a part of our solution to customers in the long run.

Some of which might already be familiar to you, i.e.:

Enertect – Battery Monitoring Systems

Enertect – Lithium Solutions

Please note that all technical and product collateral, datasheets (mechanical and electrical specifications) and nomenclature of all our product series shall remain the same and shall be communicated to you in a few days. We would like to reassure our clients that apart from the branding, all other things pertaining to GPS Singapore delivery and service support remain the same.

Again, Thank you for your support and we look forward to providing our utmost best.

(A)

Ener Rocket

(B)

Should you require any further clarifications, kindly direct your queries to:

RACHEL TOH | Product & Marketing Communications Officer
